Farmers, because of their number, find it difficult to combine to sell their products and to stabilize their markets. They are scattered, small producers, with poor facilities trice fluctuations. They can live within the arti-trust laws and yet they are hanging loese. achieve the purposes of co-operative

marketing. the same time control their saies. Some specialized agricultural interests have taken a leaf from the book of big business. But as to static products the multitude of producers is so vast and the machinery of association must be so open that friction with the Shorman act would be almost unavoidable. Congress has made it possible to escape the friction by putting co-operative farm marketing outside the antitrust law.

As a matter of fact, this exemption simply allows the farmer to do freely what the big manufacturer already does. It puts agriculture on a parity with the industries more

favorably circumstanced in the way of economic self-protection. Con-Pirst to Last-the Truth: News-Edj. cress seems to do the farmer a favor, yet it is not a favor done at the expense of the community. The Crisis of 1893

To the Editor of The Tribune. Sir: Under the heading "Dearborn Economies," in your issue of February ! 5, Thomas Woodlock discusses Henry Ford's ideas on currency. Referring to the change in our silver policy he says:

"Silver was demonetized because it ceased to be fully acceptable as money. It ceased to be fully acceptable because its value in terms of gold was decreasing and every one knew it. Consequently, it ceased to be money because doubt arose that it could be exchanged for gold at its face value. Any one who remembers the panic of 1893 knows that"

Here we have the same old theory To the Editor of The Tribune. more surprising and significant than in of that crisis that has been exploited | Sir: In to-day's Tribune it is by Wall Street experts for twenty- ported that the Russian monarchists Among the literary annals of this eight years. This theory asserts that are gathering in Berlin to choose a daring science perhaps none should the outflow of gold which precipitated Czar from the house of Romanoff.
